

# About us

For more than 16 years, Daim Plastics Group of companies represents innovative and high quality products that help simply life.

Iraq Plastics has developed a wide array of categories from home and garden to outdoor furniture products

Quality assurance of our products starts at the beginning of new product development phase. Production department works with engineering department to eliminate possible problems during production right at the very beginning of new product development phase

Our research and development department benchmarks similar products on the market and prepares design guidelines prior to designing a new product. Each market sample studied carefully to observe both negative and positive design features. When we design a new product, we always consider practical and comfortable use by the end user for easy living
